# Introducing The Theme of the Seminar

This seminar seeks to explore the enduring relevance of philosophical inquiry in addressing the complex challenges of contemporary life. By juxtaposing ancient Indian ethical frameworks with modern phenomenological perspectives on self-identity, we aim to foster a nuanced understanding of how philosophical thought can illuminate our understanding of both individual existence and social responsibility.

In a world marked by rapid technological advancements, social fragmentation, and ethical dilemmas, the need for robust philosophical reflection is more crucial than ever. This seminar brings together two distinct yet complementary streams of philosophical thought, providing a platform for interdisciplinary dialogue and critical engagement.
